INTRODUCTION

This directory lists physicians, hospitals, and other health care providers that are part of The Care Network having met all credentialing requirements of those networks.

Your use of network providers will help ensure that you receive maximum benefits as detailed in your Certificate of Coverage. It is important that you review your benefit plan, including exclusions and coverage limitations, and contact your plan administrator if you have any questions about your benefits. If you have questions specific to claims or billing, call the Customer Service number, which is displayed both on the back of your identification card and on your Explanation of Benefits form.

Every effort has been made to ensure that this directory is accurate. However, prior to obtaining services from a provider, you are encouraged to confirm that provider's participation in the network. Please also note that the provision of services by network providers does not guarantee coverage. Again, if you have any questions regarding eligibility and benefits under your plan, see your Certificate of Coverage or contact your plan administrator.
