

Medicare Primary Registration Documentation

What is Medicare Secondary Payer?

“Medicare Secondary Payer” or “MSP” is the process for determining whether Medicare or the group health plan pays primary for certain individuals entitled to Medicare on the basis of age. **Where the group pays primary to Medicare, the funding rate will be impacted.**

Why is this different for a MEWA?

There are special rules for multiple employer plans. In general, if at least one employer participating in the MEWA (“Participating Employer”) has at least 20 full and/or part time employees, the group health plan is primary even for Participating Employers having fewer than 20 employees.* However, there is an exception process for certain individuals entitled to Medicare on the basis of age for a Participating Employer with fewer than 20 employees. The exception process allows Medicare to be the primary payer for covered persons over the age of 65 for employers with fewer than 20 employees in a multiple employer plan.

* The COSE Benefit Plan does have at least one participating employer with 20 more employees.

When can I fill out the attached forms?

You may complete the Medicare Primary Registration Documentation if:

- **Your group has fewer than 20 employees, and**
- **You have a working employee age 65 or older, or a working employee with a spouse age 65 or older that wishes to be placed on a Medicare primary plan.**
- **You have a working aged employee that needs removed from Medicare Primary Registration with CMS.**

The COSE Benefit Plan will use this information to submit a written request to the Centers for Medicare and Medicaid Services with all required supporting documents to elect Medicare as the primary payer.

Please be aware that when Medicare is primary, it is very important that any employee electing Medicare Part A must also purchase and elect Medicare Part B in order for the individual to receive the maximum benefit possible. Failure to purchase and enroll in Part B will cause the employee to have a much higher cost-share for Part B claims because this plan will only pay what it would have paid as a secondary plan. If your group meets the above criteria, you may complete these forms in order to ensure the eligible participant may be placed in a Medicare primary plan.

If your group has under 20 employees and there are no employees (or spouse of an employee) age 65 or older, it is not necessary to complete these forms. However, it is necessary to complete these forms for a **working aged new hire** that is 65 or older or has a spouse that is 65 or older as well as any employee, or spouse of an employee that turns 65 while working for you. **In addition, you must submit a cancellation request of a previously approved Medicare Primary exception for anyone that is no longer employed by you.**
