PCC to learn more!**

Pharmacy Management

The **Pharmacy Benefit Management team** works alongside prescribing physicians to make sure patients receive the **most appropriate, lowest-cost medications** to ensure the best outcome in an outpatient facility, or an inpatient hospital setting.

Disease Management

The **Disease Management team** focuses on providing members with education on prevention and ensuring members with chronic health issues have all the tools and services necessary to improve their health.

Common reminders our nurses provide are:

- Preventive screenings
- Adherence follow-up
- Medication follow-up
- Information on how to improve overall outcomes.
