

Make the Most of Your Membership

Much more

than a health insurance plan

At Medical Mutual, our goal is to help our members make the best health choices possible while minimizing healthcare costs. We offer a variety of programs, discounts, tools and resources designed to do exactly that. Take a closer look at what's available beyond your comprehensive benefits.

Many Ways to Save

While Medical Mutual continuously looks for ways to make your health insurance plans more cost effective, there are several things you can do to help reduce your healthcare expenses.

Stay in Network

You can save money by using doctors, hospitals, and other healthcare providers and facilities covered under your Medical Mutual plan. Going outside your network may cost you more out-of-pocket and some services may not be covered at all. Find providers in your network before undergoing any treatment or procedures.

Avoid the ER for Minor Illnesses and Injuries

For injuries or illnesses that are not life threatening, seeing your doctor or visiting an urgent care facility or convenience clinic for treatment can be a cost-effective alternative to the emergency room. ER visits can mean long wait times and expensive out-of-pocket costs due to higher copays.

Know What's Covered

Before you have a service or procedure, be sure to review the benefits covered in your plan, which can be found in your Summary of Benefits and Coverage (SBC). An SBC is a document that summarizes important information about coverage in straightforward language. You can also speak to one of our Customer Care Specialists to make sure a treatment is covered under your plan.

Take Care of Yourself

Preventing a disease is less of a burden than treating a disease. That's why checkups with your doctor are so important. Your plan includes preventive benefits that offer coverage of well visits and screenings and immunizations. The amount of coverage may vary depending on your particular plan, but out-of-pocket costs will most likely be lower than the cost of treating a condition that has progressed.
