My Care Compare

Helping you make smart healthcare choices.

Choices Matter

Healthcare costs can vary widely depending on where you go and whom you see. Hospitals, clinics and doctor's offices charge different amounts for the same services.

That's why Medical Mutual created My Care Compare, an online tool that allows members to compare costs before they get care.

It's your money and your health

With My Care Compare members can compare costs by service location, estimate costs and review quality ratings.

This information is especially helpful for planning out-of-pocket costs if you have a qualified high deductible health plan (QHDHP).

Procedure costs

My Care Compare helps you understand how much a medical procedure, service or treatment may cost. You can view the average and the range of costs, and get an estimate by provider and service location. This can help you plan for out-of-pocket expenses or health savings account if you have one.

Treatment locations

Your doctor may order medical services that can be received in a variety of locations, like a hospital or a free-standing clinic. Costs for treatment can vary by location. My Care Compare allows you to compare the cost for the same service by location, helping you find quality care and budget related expenses.

Provider ratings

With My Care Compare you can check doctor specializations and his or her board certifications. You can find patient satisfaction ratings for doctors and hospitals and see comments from other patients.

Access My Care Compare

Access My Care Compare through My Health Plan at Member.MedMutual.com. You can also access these helpful tools through the free Medical Mutual mobile application in the Apple app store or Google Play (search for MedMutual).
