MEDICAL MUTUAL®

Basic/Basic Plus Formulary

What is the Basic/Basic Plus formulary?

The Basic/Basic Plus formulary is a list of medications covered by your plan. The formulary includes five tiers:

1. Generic (lowest out-of-pocket cost)
2. Preferred brand
3. Non-preferred brand
4. Specialty (highest out-of-pocket cost)
5. Preventive (\$0 out-of-pocket cost)

Refer to your Certificate or Benefit Book for information about your cost share, including copays, coinsurance and/or deductibles. Not all tiers apply to all plans.

If you are a member of a plan that includes a preferred pharmacy network (e.g., CLE-Care), those preferred pharmacies may offer lower cost sharing to help you save money. Check your benefit materials for more details.

Your plan may exclude certain medications. Please refer to your Certificate or Benefit Book for more information.

How do I use the Basic/Basic Plus formulary?

Covered medications are organized two ways in the Basic/Basic Plus formulary:

1. By condition
2. By name

If you know what your medication is used to treat, you can look it up by condition in the front of the document. If you don't know what condition it is used to treat, you can look for it in the alphabetical Index at the back of the document.

What do I do if my medication requires prior authorization or step therapy, or has a quantity limit?

You, your doctor or your pharmacist can call Express Scripts at 1-800-753-2851 to begin the review process for medications that require prior authorization or step therapy, or that have a quantity limit. After contacting Express Scripts, your doctor will receive a form to fill out and fax back to Express Scripts. Express Scripts will send you and your doctor a letter confirming if coverage has been approved (usually within three business days of receiving the necessary information).

- If you ordered your prescription through mail order, Express Scripts will automatically send it to you once coverage is approved.
- If you tried to fill your prescription at a retail pharmacy, you will need to return to the pharmacy to pick up your medication.

Does the Basic/Basic Plus formulary include generic and brand medications?

Yes. The Basic/Basic Plus formulary includes a variety of generic and brand medications to help you pay less out of pocket.

Generic medications are shown in this document in *lower-case italic letters*. Generics are approved by the U.S. Food and Drug Administration (FDA) as having the same active ingredient as their brand-name counterparts. In addition, the FDA requires generics to be just as safe and strong as their brand-name counterparts so you get the same medical benefit.

Brand medications are shown in this document in ALL CAPITAL LETTERS.

Does the Basic/Basic Plus formulary include specialty medications?

Yes. Specialty medications are used to treat certain complex medical conditions and may require special handling, instruction, or monitoring. Many plans limit you to a 30-day supply for most specialty medications and/or require you to fill prescriptions for these medications through one of Medical Mutual's contracted specialty pharmacies, Accredo or Gentry.

If you are a member of a plan that includes a preferred pharmacy network (e.g., CLE-Care), you may be required to use specific preferred pharmacies for specialty drugs.

Please check your Certificate or Benefit Book for more details about ordering specialty drugs.

Are there other limitations or coverage rules in addition to what are listed in this guide?

Yes. Medications listed as covered may be subject to additional coverage rules and to your plan's benefits. In addition, Medical Mutual may limit the dose and/or overall quantity of medications you are able to receive to protect your safety. These limits are developed from evidence-based clinical best practices and both national and state prescribing guidelines. If you require a dose or quantity beyond the limits allowed, your doctor or your pharmacist can call Express Scripts at 1-800-753-2851 to begin the review process.

How can I save money on my prescriptions?

Depending on your plan, you may have lower copays for drugs listed as Tier 1 and Tier 2. Even if you pay 100 percent of the cost of your drugs (until you meet your deductible), you may still pay less for generic drugs and plan-preferred brand drugs.

Generic drugs approved by the U.S. Food and Drug Administration (FDA) are just as safe and strong as the corresponding brand-name drugs.

When you visit your doctor or health provider, ask him or her to review this formulary at MedMutual.com/2021formulary so he or she can see what generic and/or plan-preferred

brand medications are covered by your plan, and which may help you save money.

If you are a member of a plan that includes a preferred pharmacy network (e.g., CLE-Care), those preferred pharmacies may offer lower cost sharing to help you save money. Check your benefit materials for more details.

Do I have to use mail order for my maintenance medications?

Depending on your plan, you may be required to use mail order for your maintenance medications (those you take for three months or more). Check your Certificate or Benefit Book for details. (Note: If you are a member of a CLE-Care plan, you must fill mail-order medications through the MetroHealth Central Fill Pharmacy. Visit metrohealth.org/pharmacy for more information and to download a form.)

Even if you are not required to do so, you may save money on your maintenance medications if you order them through the mail. In addition, you may be able to enroll in Express Scripts' Extended Payment Program. This allows you to split your cost share into three equal monthly payments while still obtaining the full amount of your prescription (limitations may apply).

To get started using mail order, ask your provider to write a prescription for up to the maximum days' supply allowed by your plan, plus refills for up to one year, if appropriate. Then:

1. Complete the home delivery form you received in the mail from Express Scripts, and return it with your payment in the envelope provided. If you need another form, visit MedMutual.com and click "Member Forms" at the bottom of the page. Download and print the Prescription Drug Mail Order Form.
2. Ask your provider to call Express Scripts at 1-888-327-9791 for instructions on how to fax the prescription or use the e-prescribing system. Your provider must have your member ID number (which is on your member Medical Mutual ID card).
3. Call the Rx Information number on your Medical Mutual ID card. A Member Services

representative can help you transfer your prescriptions to mail order.

When ordering through mail order, your medication should be delivered in about eight days (10-14 days if it's a new prescription). Please have a one-month supply of your medicine on hand when you place your order. You can check your order status by visiting the Express Scripts website through My Health Plan, or by calling the Rx Information number on your ID card.

List of Abbreviations

1: Generic

2: Preferred Brand

3: Non-preferred Brand

4: Specialty

5: ACA

ACA: Affordable Care Act.

LA: Limited Availability. This prescription may be available only at certain pharmacies. For more information, please call Customer Service.

OTC: Over the Counter. An OTC drug is a non-prescription drug.

PA: Prior Authorization. The Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, we may not cover the drug.

QL: Quantity Limit. For certain drugs, the Plan limits the amount of the drug that we will cover.

ST: Step Therapy. In some cases, the Plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.
