

Standard Plus Preventive Medications List (Generics Only)

In addition to a healthy lifestyle, getting preventive care and taking preventive medications can be an important step people take to avoid many illnesses and maintain good health.

Medical Mutual has adopted the following list of preventive medications to support this goal. This list provides examples of commonly prescribed preventive medications. We grouped the medications together based on the medical conditions they are used to prevent. This is not an all-inclusive list; only examples of drugs in each category are listed. This list also does not guarantee coverage of a particular drug or describe the type of payment you may owe. Depending on your plan, you may not have to pay a copay, coinsurance or deductible amount for preventive medications. For more information about your cost of coverage, please check with your plan administrator and/or benefit information materials.

If you have questions about your preventive medication benefits, please call Customer Care at the number on your health plan identification (ID) card.
