## Inflation Reduction Act (IRA) 2023 Medicare Part D Changes

### Changes to Adult Part D Plan Covered Vaccines

Adult Part D Plan covered vaccines will be covered at a \$0 member cost share through all Part D coverage stages, without having to meet their deductible. For a list of Medical Mutual covered Part D vaccines, please refer to the Plan formularies. Eligible vaccines can be found in the formularies by searching for \$0 Vax listed in the Requirements/Limits column. To view Medical Mutual Medicare formularies or coverage management criteria (e.g. prior authorization, step therapy), visit our [Medicare Advantage Prescription Drug Resources](#) page.

### Changes to Plan Covered Insulin

The cost of plan-covered insulin and combination products for members will not exceed \$35 a month, regardless of the member's Part D coverage stage, or if they have not met the Plan deductible. For a list of Medical Mutual covered insulins, please refer to the Plan formularies. Plan covered insulins and combination products are identified on formularies by searching for \$35/Mth listed in the Requirements/Limits column. To view Medical Mutual Medicare formularies or coverage management criteria (e.g. prior authorization, step therapy), visit our [Medicare Advantage Prescription Drug Resources](#) page.
