2023 Part B Test Strip and Meter Change

Effective Jan. 1, 2023, Medical Mutual will be switching to preferred test strips and meters.

- Products produced by manufacturers, Abbott or Lifescan (Freestyle, OneTouch, Optium, Precision, Relion Ultima) will be considered preferred products that can be filled through an in-network retail or mail order pharmacy for a \$0 copay.

We recommend switching to one of the preferred products listed above.

- All other products are considered non-preferred and can only be purchased through an in-network DME provider.

To find an in-network provider for *non-preferred* products, refer to the Medical Mutual [Provider Directory](#).
