We're excited to share an upcoming enhancement to **GatewayPA.com!** Starting **December 1, 2025**, you'll have access to our new **Oncology Regimen-Based Request (RBR)** feature for **Medical Mutual members**.

The RBR program introduces a more efficient prior authorization process, designed to simplify and accelerate approvals for oncology treatments. With this enhancement, you can submit **one regimen-based request** that covers all medications within a treatment plan – eliminating the need for multiple individual drug submissions.

To help you get ready, we're offering online training sessions led by Prime experts. These sessions will walk you through the steps for submitting a regimen-based request on the provider portal.

Please take advantage of this learning opportunity!

Reserve your spot at least one week in advance. After registering, you'll receive a confirmation email with webinar details and dial-in instructions.
